

Extended Hosting period for EMS

Customer notification

Ellab will continue hosting of your EMS cloud servers until December 31, 2030.

Throughout this period, Ellab will perform and maintain necessary safety patches and validations of the software to maintain system integrity.

We will not develop new features or major upgrades for the software.

We understand the importance of stability and continuity, and we are fully prepared to support your existing servers.

Best Regards,
Brand Management, Ellab A/S
Denmark
