## Ref: IceSpy Calibration Kit - Discontinued

The IceSpy Calibration Kit, product number **33472200**, is not available for purchase.

The kit was part of the legacy products from Hanwell. At Ellab our calibrations processes cannot support this product and the accompanying software. Therefore, Ellab has decided to discontinue the kit.

We are working on a more effective solution to meet the ISO 17025 certification requirements while ensuring we can better support our customers for their application.

We appreciate your understanding on this matter. When a suitable solution is available, we will notify you.

For product inquiries about the IceSpy Calibration Kit please contact your local Ellab sales representative or utilize the TOPdesk portal - Product Management.
