

## Notion Lite: Discontinuation of Product Range

Dear Madam/Sir,

We kindly inform you that based on the latest product portfolio review, it has been decided to discontinue the Notion Lite Product Range.

The decision has been made to ensure our portfolio is aligned with our strategy to focus on compliance, data integrity and a software platform that support new and future technology.

And the Notion Lite has seen decreasing sales over the years, and we have limited resources to continuously keep product in a competitive position.

### Timeline:

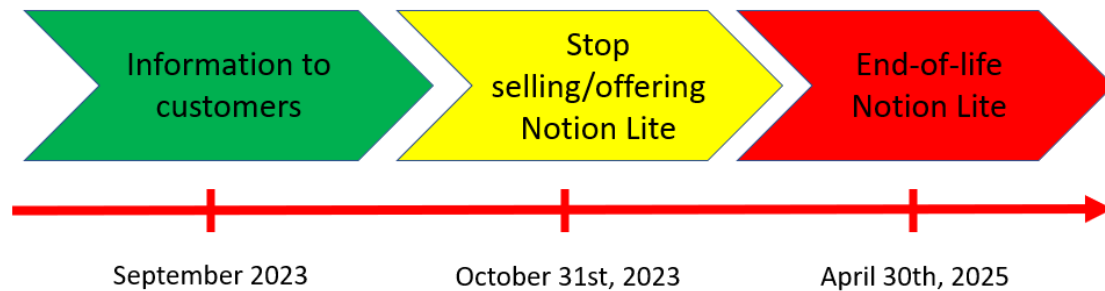

Figure 1: Timeline for discontinuation of the Notion Lite Product Range

The agreed timeline for the discontinuation of the Notion Lite Product Range is as illustrated in figure 1, and in that connection please note the following:

- From **September 29**, no new opportunities concerning a Notion Lite product can be created in Salesforce.
- All open opportunities on Notion Lite must be Closed in Salesforce and the voucher must be issued and have a start date before **October 31, 2023**.
- Notion Lite spare parts are available until December 20, 2024.

---

### How to communicate to end customers:

Please find the attached example on a follow up letter. This an example that can be used in full or different parts of the content.

*Please fill in the **XXX** information before sending!*

### Output from Notion Lite software:

If customers need to extract data from the solution before termination, a CSV extract is possible.

Please find together with this letter the list with distributors/subsidiaries and the spare parts for Notion Lite (both modules and probes).

Best Regards

Ronnie Krogsgaard Nørmark  
Global Product Manager, Monitoring Solutions

Appendices:

- List of Subsidiaries/Distributors
- List of Hardware
