

Product News Continuous Monitoring

October 2024

To Whom It May Concern

Reference: iSense Mk1+Mk2 & CR2 GPRS Discontinuation of Technical Support

Ellab has discontinued technical support for the hardware mentioned above. These equipment communicate using 2G AND 3G network which have probably been shut down by the network provider.

With the transfer of the Monitoring Solution to Ellab A/S from the former Hanwell, this business has been divested to another company.

Therefore, Ellab is unfortunately unable to provide additional services for this range of products.

For further enquiries and support please contact Gwentec:
